Mrs. Pearce To See Radio Free Europe

Mrs. D. Pearce of Miami leaves New York today for a week-long tour of Europe to inspect Radio Free Europe installations. Most of the time will be spent in Munich.

Mrs. Pearce, vice president of the General Federation of Women's Clubs, is representing the GFWC and is one of the people invited to inspect RFE operations.

The schedule calls for an all-day visit to the state of the Iron Curtain along the Czechoslovakian border and a trip to West Berlin if the air corridor is open.

Mayor Willy Brandt is scheduled to be host at a reception for the visitors. They will attend a luncheon and briefing on the Berlin situation by officials of the U.S. Berlin mission and the U.S. Army, and will visit portions of the border between East and West Berlin.

They'll return to New York Sunday morning, Oct. 2.

Mrs. E. Lee O'Brien, GFWC president, will be awarded the Freedom of Information for her support of Radio Free Europe. The GFWC is a Federation of Women's Clubs under leadership of Mrs. O'Brien.

was first among state federations in contributions last year.
